**Commercial Information****SURFACE PREPARATION INNOVATION****Version Date:** January 2011**Title:** 300L Double Chamber Blast Pots

## 300L DOUBLE CHAMBER BLAST POTS

Blast pots supplied by Blastrite are manufactured under stringent international regulations and are both CE marked with a NoBo number next to it and third party-inspected by TÜV NORD and inspected by TÜV Rheinland South Africa.

Blastrite blast pots are designed for 60,000 cycles and are certified to operate at 12 bar with 1mm corrosion allowance.

The double chamber pots are available in manual and remote control configuration and are interchangeable with all known accessories in the market.

Each 150 litre chamber can store up to 270 kilograms of mineral slag and is suited for a wide range of blasting nozzles.

The unique configuration allows uninterrupted blasting to as many as two nozzles. Each nozzle is independently controlled allowing one blaster to continue while the other has stopped.

### Other features

- Dual 2" inlets
- Dual remote control valves
- Dual Thompson Metering Valves
- Dual Moisture Separators as standard

## SURFACE PREPARATION INNOVATION

Portable/Stationary Abrasive Blast Equipment - Nozzles - Nozzle Holders - Hoses - Couplings - Lighting
