Commercial Information

SURFACE PREPARATION INNOVATION

Version Date: January 2011

Title: Heavy-duty suction guns

HEAVY-DUTY SUCTION GUNS

Blastrite's range of heavy-duty suction guns are specially designed for use with any dry abrasive blasting media. These tools excel where there is a limitation on both air supply (max 90 CFM / 150 m³/h) and available space. The guns feature durable tungsten carbide blast nozzles with hardened steel air tips.

Standard features

- Ergonomic, lightweight design
- Case hardened steel air tip for longer service life
- Easy to maintain
- Available with a wide tungsten carbide blast nozzles
- Easy setup, just connect air and partially submerge suction lance into bag of abrasive
- The suction gun can operate on virtually any abrasive media type straight from the bag

Blast Gun

Description	Air Jet	Nozzle	Compressed air req'd @ 100 psi / 7 bar
Blast Gun	5 mm	10mm	50 CFM (85 m³/h)
Power Injection Gun	6 mm	12.7mm	90 CFM (150 m³/h)

Power Injection Gun (CLEMCO)

Applications

- Touch-up work or re-blasting failed areas
- Difficult to reach areas
- Small jobs
