**Commercial Information*****SURFACE PREPARATION INNOVATION*****Version Date:** January 2011**Title:** Climate Control Tube**CLIMATE CONTROL TUBE**

The Blastrite Climate Control Tube is approved to supply a continuous flow of cool or warm compressed air to your blast helmet.

**Why the need for climate control tubes?**

It is a documented fact that an operator will lose between 20-30% of his body heat through his head. Therefore, the productivity and safety of a blasting or painting operation improves if the operator is comfortable.

**Features**

- Cooling capacity 20°C (Blue)
- Heating capacity 18°C (Red)
- Very rugged design
- No wear parts
- Perfect fit in combination with Blastrite's Astro Helmet and Blastrite's Nova Helmet
