**Commercial Information****SURFACE PREPARATION INNOVATION****Version Date:** January 2011**Title:** Micro II – Abrasive Metering Valve**MICRO II – ABRASIVE METERING VALVE**

The Micro II Valve guarantees unmatched performance, dependability and durability. Developed from the original Micro Valve, the Micro II Valve has several new features making it one of the most efficient abrasive metering valves available today.

The valve is suitable for all types of abrasives from soft plastics to aggressive steel grit. With infinite adjustment you are assured of optimal setup on your abrasive blast system.

**Features**

- The pipe nipple now features a unique locating pin system, eliminating misalignment.
- Large drain hole to allow clearing of blockages in the valve.
- The valve can be serviced by removing the top body, therefore eliminating the need to remove the valve from the pot for servicing.
- The internal wear parts are fully interchangeable with the original Micro Valve.
- Graduation markings allow precise repeatable settings.
